CareFlex

The Care Chair Range

AlphaCare II®

Providing comfort and security
when it is needed most.

Why Choose CareFlex

Designed with Expertise, Built with Purpose

At CareFlex, we believe that everyone deserves to sit comfortably, safely, and with dignity. For over 30 years, we have been designing and building care chairs here in the UK. Every chair brings together clinical insight, expert craftsmanship, and a commitment to supporting people's daily lives, with care at the heart of everything we do.

You are Not Just Buying a Chair, You are Gaining a Partner in Care

CareFlex makes choosing your chair simple by listening to your needs and guiding you to a chair that supports you and suits your home, then we deliver and set it up with care.

We make choosing your chair easy, with friendly expert guidance, so the chair supports you, feels comfortable, and looks right in your home.

With CareFlex, you get clear, personal guidance that leads to a chair which fits you and suits your home, followed by delivery and careful set up when it arrives.

Why Families and Professionals Trust Us

UK-Made Quality
Every chair is built in Devon using durable materials and tested to meet the highest safety and comfort standards. We have been proudly manufacturing our chairs in the UK for over 30 years.

Created for Everyday Life
Our chairs are designed to handle the demands of daily use, offering lasting comfort and dependable performance; backed by market-leading warranties and proven reliability.

Tailored Solutions
No two people are the same. That is why we offer customisable options to meet individual needs, from posture to positioning and everything in between.

WaterCell Technology
Our advanced pressure care system helps reduce the risk of pressure ulcers, redistributing weight to help protect skin and enhance comfort.

Designed with Real People in Mind
We work closely with therapists, families, and individuals to create chairs that meet real-world needs and daily challenges.

Trusted by Professionals
CareFlex chairs are used by the NHS, care homes, schools, and rehabilitation centres; and now you can access the same trusted support at home.

UK-Wide Assistance
We offer nationwide coverage with a dedicated UK-based Customer Support Centre, so help is always close by.

Friendly, Expert Support
Our knowledgeable team is here to help; from your first enquiry to aftercare, with honest advice, free assessments, and ongoing support.

Fantastic service from start to finish. Had a visit and demonstration of the chair before buying. Excellent advice, support and lovely staff.

Welcome to the AlphaCare II®

Class I Medical Device | UKCA Certified | Designed for Comfort & Stability | Built in the UK

The AlphaCare II is a robust, supportive care chair created to help people who need extra safety and security while sitting. Whether someone experiences uncontrolled movement or has reduced balance, AlphaCare II is designed to give reassurance, for the person using it and those providing care.

- Ideal for people who are at risk of injury, fatigue, or falling when seated.
- A simple, strong, and supportive seating solution, centred on comfort.
- Includes features for safety, stability, and easy use by caregivers.
- Backed by two-year warranty on the frame.

Made for Real Life:

Backed by Real Outcomes

The AlphaCare II is designed to help people feel calm, secure, and well supported throughout the day. With simple adjustments and thoughtful features, it makes daily routines feel safer, more manageable, and more comfortable for everyone involved. The AlphaCare II was developed alongside healthcare professionals and shaped by two years of feedback from real care environments.

Whether you are using the chair yourself or caring for someone else, you can trust it to offer comfort, safety, and stability, day after day.

- Evaluated by occupational therapists, physiotherapists, and seating specialists.
- Trialled in hospitals, nursing homes, and supported living settings.
- Refined with insight from carers, clinical teams, and families.
- Built to handle the daily demands of personal care, positioning, and postural support.

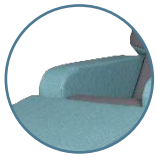

When you choose the AlphaCare II, you are choosing a solution grounded in experience, tested in real life, and trusted by professionals.

Bought this fabulous, versatile chair for our elderly mother. It has every feature you could wish for: high quality materials and design, practical, easy to use, has a detachable leg rest (if you want it), an extendable foot rest, has excellent mobility, is very safe and wipes clean. It comes in a range of colours of your choice and you can have additional accessories according to your needs. I highly recommend the AlphaCare Chair as it fulfills all our needs and more! Excellent, efficient seamless service from CareFlex staff for their expertise, advice and support. I would use this company again. Thank you.

Joanne Sheehan, family member

Benefits & Daily Life

Features	The Benefits You Will Feel
 **Linked Seat and Back Recline** Seat angle adjusts as the back reclines.	Promotes stability, and supports comfortable rest in sitting.
 **Shaped Back Support** Cradles the person in a stable, supported position.	Offers reassurance and engagement, and helps reduce leaning or falls.
 **Seat Width and Height Options** Two seat width and two seat height configurations.	Allows for personalised chair set-up.
 **Curved Padded Armrests** Extra comfort and security in sitting.	Protects from injury and increases stability.
 **Detachable Block Leg Rest** Supports the legs in a relaxed position.	Promotes comfort, and reduces the risk of sliding or falling down the chair.
 **Sliding Footplate** Protective support for the feet.	Aids posture, stability, and pressure care.
 **Reflexion® Foam Cushions** Integrated pressure care in the seat and leg rest.	Protects skin health.
 **Strong Frame with Lockable Castors** Built for safety and controlled movement.	Keeps the chair in place during care or rest.
 **Infection-Control Materials** Easy-wipe surfaces and minimal seams.	Simple to clean and maintain in care settings.

Who Can it Help?

If sitting upright is difficult, or if there is a risk of uncontrolled movement, fatigue, or falling, AlphaCare offers a safer, more comfortable alternative to standard seating.

It may be suitable for adults living with:

- Huntington's disease
- Advanced dementia
- Brain injuries
- Neurological or movement disorders
- Conditions causing severe fatigue or instability

Where can it be used?

- Care homes and nursing homes
- Hospitals and rehabilitation units
- Hospices and palliative care settings
- Domestic homes and supported living environments.

AlphaCare II is particularly helpful for people who need extra reassurance or positioning support when seated.

Duncan's **Story**

Duncan is a 61 year old gentleman living with advanced Alzheimer's disease, a history of seizures, and significant movement challenges. Once known for his gentle humour and warmth, Duncan now relies on round the clock support for every part of daily life.

For Duncan and those closest to him, one of the greatest challenges was simply helping him sit safely and comfortably. He would often rotate or slide in his chair, sometimes even tipping it over. Each incident brought the risk of injury and left him anxious and unsettled. For his family, it meant living with a constant sense of worry, every visit filled with concern rather than ease, every mealtime shadowed by the fear of another fall.

The AlphaCare II has brought comfort and stability, the foundation for calmer, safer days.

For his family, it has restored something even more valuable: moments of connection without constant concern. They can sit beside him, hold his hand, and share time together without fear of a fall or discomfort interrupting the moment.

The AlphaCare II has not only improved Duncan's physical safety but also transformed his emotional and relational wellbeing. It has given his family reassurance and peace of mind, and for Duncan, a renewed sense of ease and presence, allowing small, precious moments of togetherness to return to everyday life.

Duncan's **Story...**

...How the AlphaCare II Helped.

When Duncan became one of the first people to trial the AlphaCare II, the impact was immediate and deeply reassuring.

- The chair's supportive design and pelvic stabilisation reduced unwanted movements and rotation.
- Duncan no longer tips or slides, and the sturdy materials withstand daily use with ease.
- The integrated recline function allows him to rest safely, reducing fatigue and supporting good posture.
- With his body properly supported, Duncan is noticeably more settled and comfortable during family visits and daily routines.
- His care team have been able to reduce one to one observation, freeing time for more meaningful engagement and easing overall workload.

With AlphaCare, Duncan is not only safer, but he is also more settled, more comfortable, and more connected to the people around him.

"The AlphaCare has made a huge difference. Duncan is calmer, safer, and no longer needs constant one to one observation. For the first time, a chair has truly met his needs."

Clinical Team

Next Steps...

We are with you every step of the way.

Choosing the right care chair can feel like a big decision, but we are here to make it simple, supportive, and stress-free.

1. Speak to Our Friendly Team

We will listen to your needs and guide you to the right chair with honest, no-pressure advice.

2. Free, No Obligation, Home Visit

A trained specialist will visit to assess your needs, demonstrate the chair, and make sure it is the right fit.

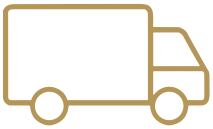

3. Personalised Quote

You will receive a clear quote with optional extras, funding advice if needed, and time to decide.

4. Made for You

Your chair is built to your individual specifications in our UK factory.

5. Delivery and Setup

Our team delivers the chair, sets it up, and makes sure you feel confident and supported using it.

6.Ongoing Support

From small adjustments to long-term care, we are here whenever you need us.

★★★★★

CareFlex has a great team that are always very professional and knowledgeable.
