The Care Chair Range

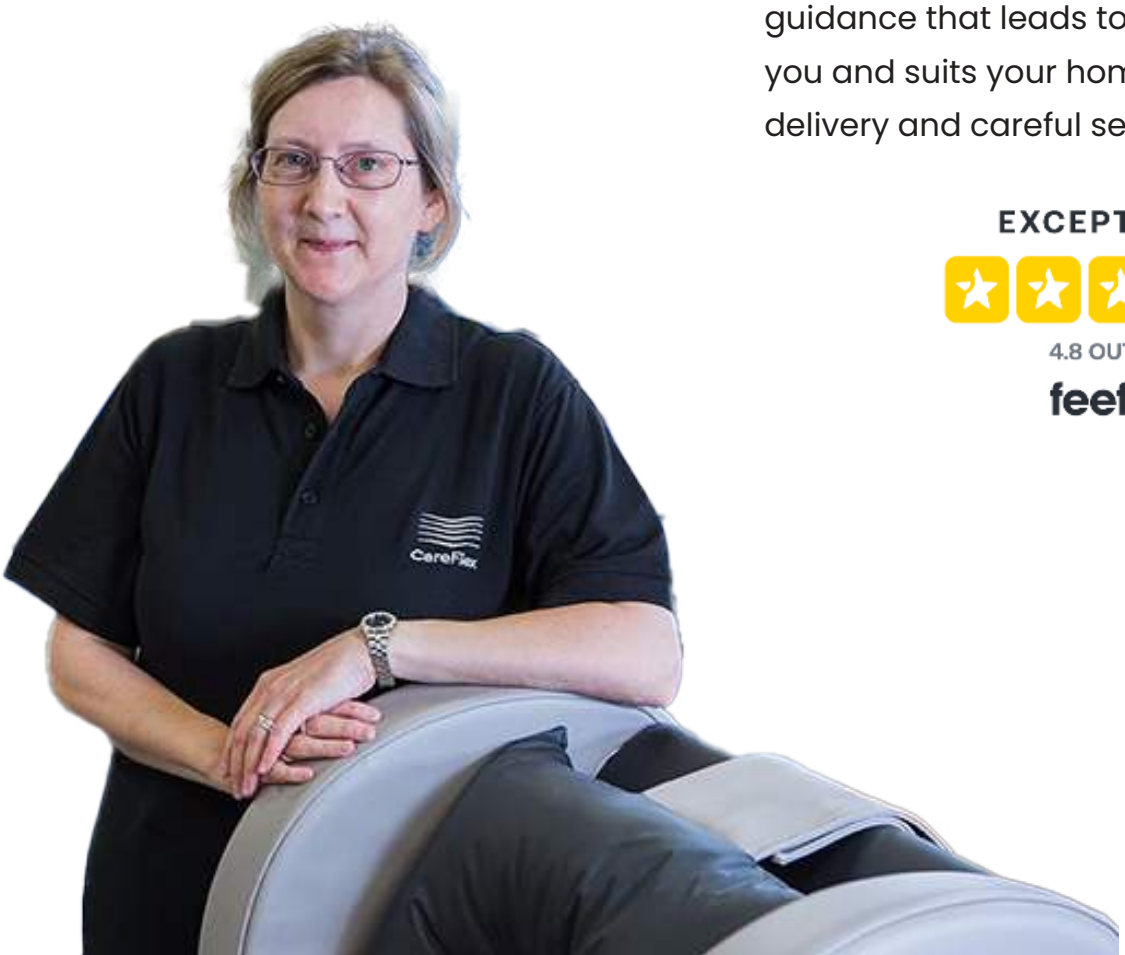

EasiTilt®

A Supportive Chair When Sitting Becomes More Difficult

Why Choose CareFlex

Designed with Expertise, Built with Purpose

At CareFlex, we believe that everyone deserves to sit comfortably, safely, and with dignity. For over 30 years, we have been designing and building care chairs here in the UK. Every chair brings together clinical insight, expert craftsmanship, and a commitment to supporting people's daily lives, with care at the heart of everything we do.

You Are Not Just Buying a Chair, You Are Gaining a Partner in Care

CareFlex makes choosing your chair simple by listening to your needs and guiding you to a chair that supports you and suits your home, then we deliver and set it up with care.

We make choosing your chair easy, with friendly expert guidance, so the chair supports you, feels comfortable, and looks right in your home.

With CareFlex, you get clear, personal guidance that leads to a chair which fits you and suits your home, followed by delivery and careful set up when it arrives.

Why Families and Professionals Trust Us

UK-Made Quality
Every chair is built in Devon using durable materials and tested to meet the highest safety and comfort standards. We have been proudly manufacturing our chairs in the UK for over 30 years.

Created for Everyday Life
Our chairs are designed to handle the demands of daily use, offering lasting comfort and dependable performance; backed by market-leading warranties and proven reliability.

Tailored Solutions
No two people are the same. That is why we offer customisable options to meet individual needs, from posture to positioning and everything in between.

Reflexion® Foam
Integrated into the seat and leg rest, Reflexion Foam is designed to support pressure redistribution, comfort and stable positioning during seated use.

Designed with Real People in Mind
We work closely with therapists, families, and individuals to create chairs that meet real-world needs and daily challenges.

Trusted by Professionals
CareFlex chairs are used by the NHS, care homes, schools, and rehabilitation centres; and now you can access the same trusted support at home.

UK-Wide Assistance
We offer nationwide coverage with a dedicated UK-based Customer Support Centre, so help is always close by.

Friendly, Expert Support
Our knowledgeable team is here to help; from your first enquiry to aftercare, with honest advice, free assessments, and ongoing support.

★★★★★

Fantastic service from start to finish. Had a visit and demonstration of the chair before buying. Excellent advice, support and lovely staff.

5* Feefo review.

Welcome to the EasiTilt®

FIRA Certified | UKCA Certified | Designed for Comfort & Stability | Built in the UK

The EasiTilt is a supportive care chair created to help people who are finding it harder to sit safely and comfortably in a standard armchair or rise and recline chair.
Whether someone slides forward, leans to one side, tires quickly, or needs regular help to get comfortable, EasiTilt is designed to provide reassurance for the person using it and those providing care.

- Ideal for people who need more support than a standard chair or recliner can provide.
- The whole chair gently tilts back to help the person feel more stable and supported.
- Includes simple adjustments, different back options, leg support, and helpful accessories.
- Supports comfort, dignity, and everyday care at home or in a care setting.

Made for Real Life:

Backed by Real Outcomes

The EasiTilt is designed to help people feel more stable, secure, and well supported while sitting. With simple adjustments, a gentle tilt, and supportive features, it helps make daily routines safer, more manageable, and more comfortable for everyone involved.

The EasiTilt also offers a choice of back styles, so the chair can be set up around the person's comfort and support needs. The Open Back allows extra supports to be added where needed, while the Wing Back gives a softer, more enclosed feel. Different cushion options, including flat, waterfall, contoured, and cocoon styles, help provide the right level of comfort and support.

Whether you are using the chair yourself or caring for someone else, you can trust it to offer comfort, stability, and practical support, day after day.

- Designed for people who need more support than a standard armchair or rise and recline chair can provide.
- Helps support people who slide forward, lean to one side, tire when seated, or need help to reposition.
- Offers a choice of back styles to suit different comfort and support needs.
- Includes simple adjustments, leg support, and helpful accessories for everyday care.

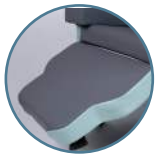

When you choose the EasiTilt, you are choosing a simple, supportive seating solution designed to help people sit more safely, feel more comfortable, and stay involved in everyday life.

"Many thanks for all of your support, excellent service, and very polite and efficient. Thank you."

Weight Capacity:	160kg	160kg

The Story

A 52-year-old gentleman living in a specialist nursing home needed round-the-clock care. He had a progressive condition that caused significant uncontrolled movement and made it very difficult for him to stay safely seated. As his needs changed, a standard chair was no longer safe or effective, and his ability to sit out became increasingly limited.

Without the right seating, everyday activities became much harder. Eating and drinking had to take place on the floor, with support from two members of staff. His position was difficult to maintain, which affected his dignity, reduced his chance to take part in social activities, and placed extra physical demands on the care team.

The **Story...**

...How the EasiTilt Helped.

The EasiTilt was introduced with added support, including a pommel and a secure tray system, to help provide a safer and more stable seated position. For the first time in over two years, he was able to sit safely in a chair and eat in a seated position.

This made a meaningful difference to daily life. Mealtime support reduced from two staff members to one. He was able to sit out of his room, take part in activities, and spend time with family in a more comfortable and dignified way. The care team described him as more settled, more comfortable, and more willing to sit out for longer periods.

“This chair has been life changing... he has been able to sit to eat for the first time in over two years.”

Natalie, Physiotherapist

Next Steps...

We are with you every step of the way.

Choosing the right care chair can feel like a big decision, but we are here to make it simple, supportive, and stress-free.

1. Speak to Our Friendly Team

We will listen to your needs and guide you to the right chair with honest, no-pressure advice.

2. Free, No Obligation, Home Visit

A trained specialist will visit to assess your needs, demonstrate the chair, and make sure it is the right fit.

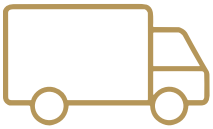

3. Personalised Quote

You will receive a clear quote with optional extras, funding advice if needed, and time to decide.

4. Made for You

Your chair is built to your individual specifications in our UK factory.

5. Delivery and Setup

Our team delivers the chair, sets it up, and makes sure you feel confident and supported using it.

6. Ongoing Support

From small adjustments to long-term care, we are here whenever you need us.

★★★★★

CareFlex has a great team that are always very professional and knowledgeable.
